

Lung Cancer Screening Data Set (LCSDS) Version 1.0 Public Consultation Questionnaire: Summary report

This report was created on Friday 08 May 2026 at 09:02 and includes 20 responses.

The activity ran from 01/08/2025 to 29/09/2025.

Contents

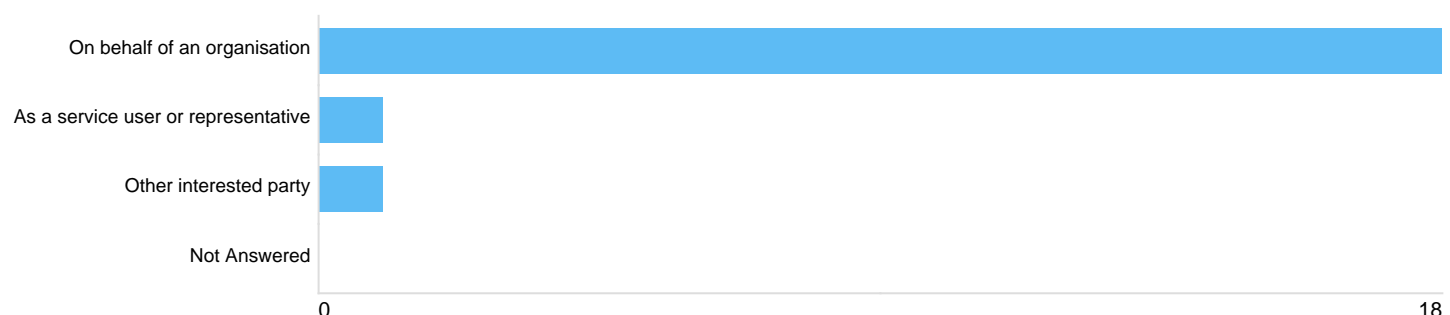

Question 1: In what capacity are you responding to this consultation?	3
Q1	3
Question 2: Please provide the name of your organisation:	4
Q2	4
Question 3: Does your organisation have an ODS code? (Please see www.odsdatabasearchandexport.nhs.uk for further details) If you do have an ODS code, please provide this information below:	4
Please provide further information below:	4
Question 4: Please tell us what type of organisation you work for - tick all that apply:	4
Q3: Choice	4
Q3: other	5
Question 5: Please tell us which role types were consulted with prior to providing the response for this consultation.	5
Please tell us which role types were consulted with prior to providing the response for this consultation.	5
Q4: other	5
Question 6: Please provide brief details of your specific areas of interest in the data set.	5
Q6: other	5
Question 7: Please provide your email address:	5
Q7	5
Question 8: If you are responding as a representative of any other stakeholder group not already listed. Please indicate with further details below.	6
Please provide further information below:	6
Question 9: This patient-level data set will involve the submission of data tables and their individual data items, which will relate to the patient, their referral(s), invitations to lung health checks, invitations to scans, the scans themselves and their findings, along with any onward referral information. This section outlines each of the proposed data tables. Please review each of the proposals listed below for inclusion into this new data set. Please provide an answer to indicate your level of support for the change.	6
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS000 Header' table	6
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS001 Master Patient Index' table.	7
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS002 GP Practice Registration' table.	8
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS003 Finding' table.	9
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS004 Observation' table	10
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS101 Service Request' table.	11
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS102 Invitation Reminder' table	12
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS103 Screening Activity' table	13
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS104 Onward Referral' table	14
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS201 Care Contact' table	15
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS202 Care Activity' table	16
Please provide your response regarding the proposal to add the data tables listed below. - 'LCS203 Coded Scored Assessment (Care Activity)' table	17
Please provide your comments or feedback on these below.	17
Question 10: Referring to the LCS001 Master Patient Index table, are you able to capture the following data items:	17
Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Person Stated Gender Code	17
Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Religious or Other Belief System Affiliation Code	18
Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Person Stated Sexual Orientation Code	18
If yes, can you elaborate on how you capture these data items within your system (e.g. ICD-10, SNOMED CT etc)?	18

Question 11: Referring to the LCS001 Master Patient Index table. Do you anticipate the collection of the following data items to be problematic?	18
LCS001 MPI - Religious or Other Belief System Affiliation Code	18
LCS001 MPI - Subject of Care Stated Sexual Orientation Code	19
If yes, please provide further details below:	19
Question 12: Do you use SNOMED-CT for capturing Observations, Findings and Procedures within your system? Some examples are as follows: 2489381000000106 Lung health check (procedure) 713548006 Low dose computed tomography of thorax (procedure) 1792031000000106 Prostate, Lung, Colorectal, and Ovarian modified 2012 6-year lung cancer risk calculator for smokers score (observable entity)	19
Please provide further information below:	19
Please provide further information below:	19
Question 13: Do you have the capability to submit diagnosis of lung cancer within this data set? One example is as follows: 363358000 Malignant neoplasm of lung (disorder) [SNOMED CT]	20
Do you have the capability to submit diagnosis of lung cancer within this data set?	20
Please provide further information below:	20
Question 14: How do you currently record Smoking Status within your system?	20
Please provide further information below:	20
How do you currently capture this?	20
Question 15: We are proposing to make the NHS Number mandatory. Do you foresee any problems with this? It would be useful for us to know how many patients on your records currently do not hold an NHS Number?	20
Please provide as much information as possible below:	20
Question 16: Do you record 'overall score' for lung health checks or as 'answers to individual scores'? Do you have the capability to record this as separate questions?	20
Please provide as much information as possible below:	20
Question 17: Do you currently submit any information to the Diagnostic Imaging Data Set (DIDS)?	21
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details	21
Please provide further information below:	21
Question 18: We want to ensure that data is not being duplicated across different data sets. If you are already submitting data to the Diagnostic Imaging Data Set (DIDS), can you please describe this in more detail below?	21
Please provide further information below:	21
Question 19: If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details:	21
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Does any of this information include lung cancer screening or scans which take place within the Lung Cancer Screening Programme?	21
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Is any of your lung screening activity (i.e. a low dose CT scan) captured using a Radiology Information System?	21
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Are your scanners part of a Trust Radiology system?	22
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Is any of your screening activity/imaging run and managed within a radiology department?	22
If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Who is responsible for performing the scans? We would like to understand the type of staff involved and whether staff are also distinct to just the lung cancer screening programme or whether they are more of a shared resource across Radiology?	22
Question 20: If you have answered 'Yes' to Question 19 above. Please provide further information below:	23
Please provide further information below:	23
Question 21: Monthly reports on the LCSDS will be published on the NHS England website once the data set has gone live. The reports contain key information based on the submissions that have been made by providers and each report focuses on data relating to activity that occurred within a previous reporting month. Please provide details of any specific reports that you would like to see based on the proposed new data in version 1.0 of the LCSDS.	23
Please provide further details below:	23
Question 22: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025, would you anticipate being able to achieve the following timescales?	23
Would you anticipate being able to achieve the following timescales? - Collection of the required data from 1 July 2026	23
Would you anticipate being able to achieve the following timescales? - Submission of the required data from 1 August 2026	23
Q25: Comments	23
Question 23: Following publication of the ISN, when do you anticipate you will be ready to make a submission?	23
Please provide further information below:	23
Question 24: We are considering who will be responsible for submitting data, and we need to determine what level of granularity data needs to be submitted in. As we are considering data to be submitted at site level, if you are a provider organisation, do your various sites have an ODS code? If so, please state the code. If sites do not have an ODS code, can you foresee any issues with obtaining one? Please add further details below.	24
Please provide further information below:	24

Question 25: Which type of system(s) do you supply? Please tick all that apply:	24
Q26	24
Q26-other	24
Question 26: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025, would you anticipate your system being ready for providers to collect data from 1 July 2026 and submit data from 1 August 2026?	24
Please provide further information below:	24
Question 27: Further to question 26. If you are unsure or you have responded 'no' to this question, please add further details below:	24
Please provide further information below:	24
Question 28: Assuming the ISN is ready to be published in December 2025/January 2026 at the latest, do you consider the period of notice (six months) provided through the ISN to be adequate for the level of change included in this release?	25
Q28: Yes/No	25
Q28: Comments	25
Question 29: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025/January 2026 at the latest, would you anticipate being able to achieve the following timescales?	25
would you anticipate being able to achieve the following timescales? - To allow recording of the data items specified in LCSDS v1.0 by 1 July 2026	25
would you anticipate being able to achieve the following timescales? - To allow production of extracts for submission to NHS England in the format specified in LCSDS v1.0 by August 2026	25
would you anticipate being able to achieve the following timescales? - To allow provider access to data in the new structure by August 2026	26
Q27: Comments	26
Question 30: Do you believe that any of these additions proposed for LCSDS v1.0 will create any unnecessary additional burden?	26
Do you believe that the changes proposed in MHSDS v5.0 will create additional burden?	26
Please provide any further comments below:	26
Question 31: Are there any other tools or resources you would like NHS England to provide, to assist with the implementation of LCSDS Version 1.0?	26
Are there any other tools or resources you would like NHS Digital to provide, to assist with the implementation of MHSDS Version 6.0?	26
If there are any other tools or resources you would like NHS England to provide, to assist with the implementation of LCSDS Version 1.0, please provide details below:	27
Question 32: If applicable (data submitters only), is there anything further NHS England can do to help with the data quality of your submissions?	27
If there is anything further NHS England can do to help with the data quality of your submissions, please provide details below:	27
Question 33: Please take this opportunity to raise any issues or concerns you have with the changes proposed in LCSDS v1.0.	27
Please provide specific details of any issues or concerns below:	27
Question 34: Would you be interested in attending the next Expert Reference Group (ERG) session?	27
Please provide further information below:	27
If yes, please ensure that you have provided your contact details	27
Question 35: Do you consider the introduction of the Lung Cancer Screening Data Set to be beneficial. And if so please provide additional details?	27
Please provide further information below:	27
Question 36: The LCSDS as per many of our data sets, will be in a relational structure (please refer to the draft data model and technical output specification for details). If you have any concerns about this format, please provide further details.	27
Please provide further information below:	27
Question 37: NHS England plan to provide the following resources: Implementation Guidance, Technical Output Specification (TOS), User Guide, Data Model and some scenarios with example data to support the implementation of LCSDS v1.0. Are there any tools or resources NHS England can provide in addition to these to support the implementation?	27
Please provide further information below:	27

Question 1: In what capacity are you responding to this consultation?

Q1

Option	Total	Percent
On behalf of an organisation	18	90.00%
As a service user or representative	1	5.00%
Other interested party	1	5.00%
Not Answered	0	0.00%

Question 2: Please provide the name of your organisation:

Q2

There were **20** responses to this part of the question.

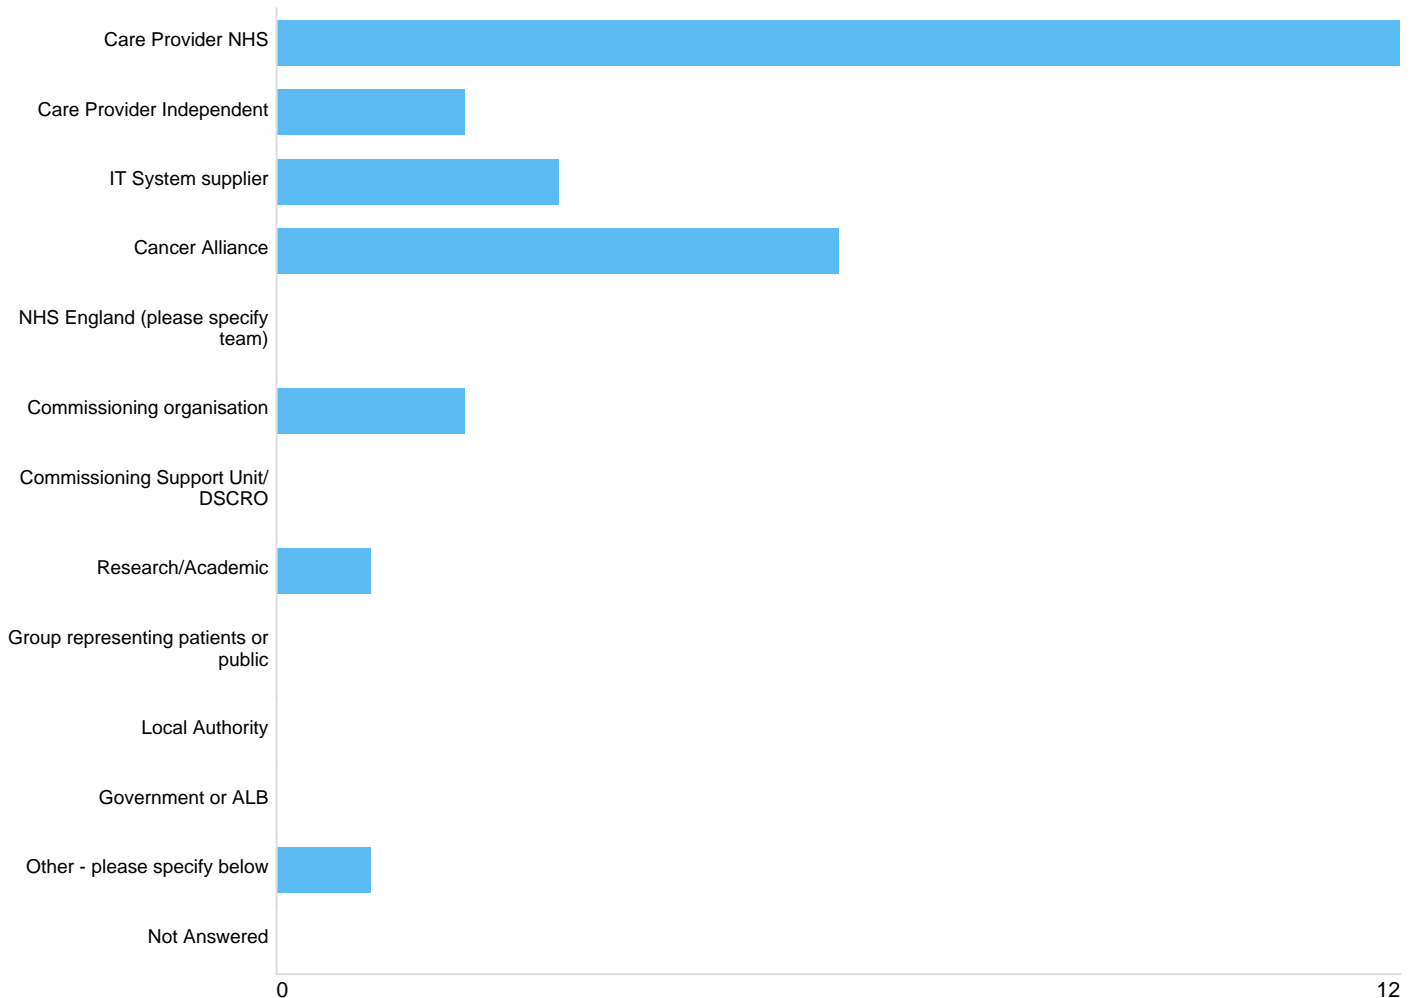

Question 3: Does your organisation have an ODS code? (Please see www.odsdatabsearchandexport.nhs.uk for further details) If you do have an ODS code, please provide this information below:

Please provide further information below:

There were **19** responses to this part of the question.

Question 4: Please tell us what type of organisation you work for - tick all that apply:

Q3: Choice

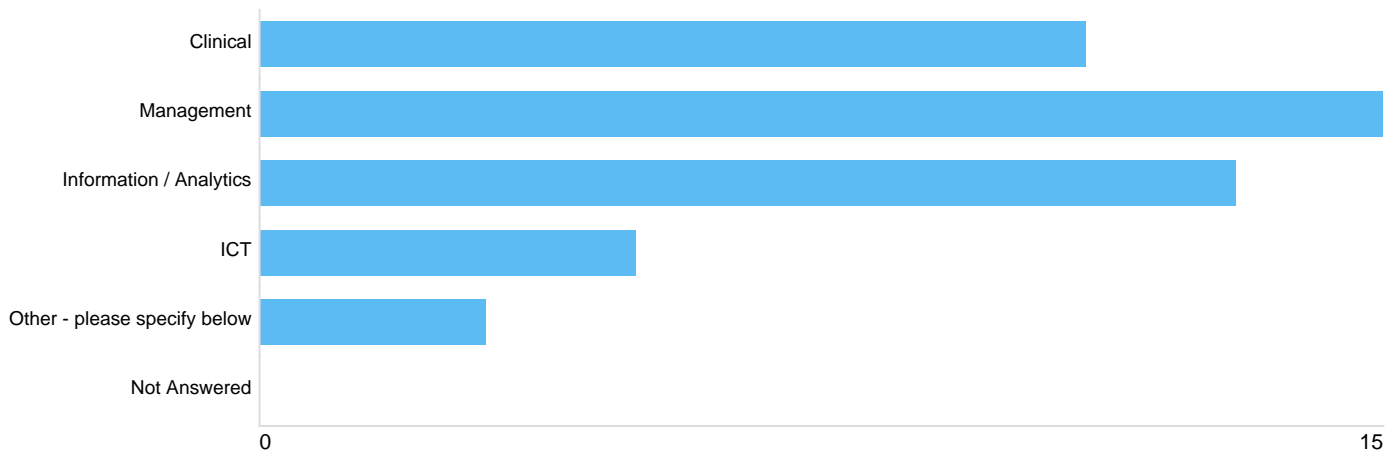

Option	Total	Percent
Care Provider NHS	12	60.00%
Care Provider Independent	2	10.00%
IT System supplier	3	15.00%
Cancer Alliance	6	30.00%
NHS England (please specify team)	0	0.00%
Commissioning organisation	2	10.00%
Commissioning Support Unit/ DSCRO	0	0.00%
Research/Academic	1	5.00%
Group representing patients or public	0	0.00%
Local Authority	0	0.00%
Government or ALB	0	0.00%
Other - please specify below	1	5.00%
Not Answered	0	0.00%

Q3: other

There were **19** responses to this part of the question.

Question 5: Please tell us which role types were consulted with prior to providing the response for this consultation.

Please tell us which role types were consulted with prior to providing the response for this consultation.

Option	Total	Percent
Clinical	11	55.00%
Management	15	75.00%
Information / Analytics	13	65.00%
ICT	5	25.00%
Other - please specify below	3	15.00%
Not Answered	0	0.00%

Q4: other

There were **19** responses to this part of the question.

Question 6: Please provide brief details of your specific areas of interest in the data set.

Q6: other

There were **19** responses to this part of the question.

Question 7: Please provide your email address:

Q7

There were **20** responses to this part of the question.

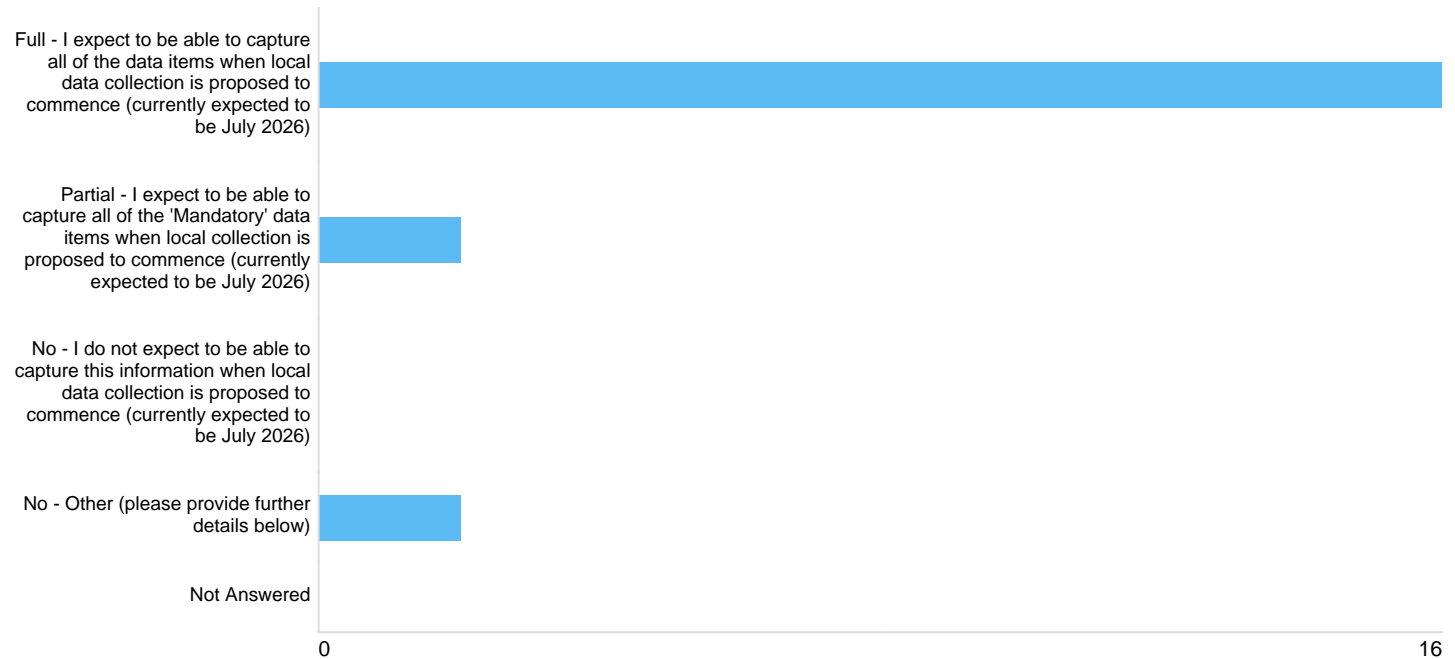

Question 8: If you are responding as a representative of any other stakeholder group not already listed. Please indicate with further details below.

Please provide further information below:

There were 17 responses to this part of the question.

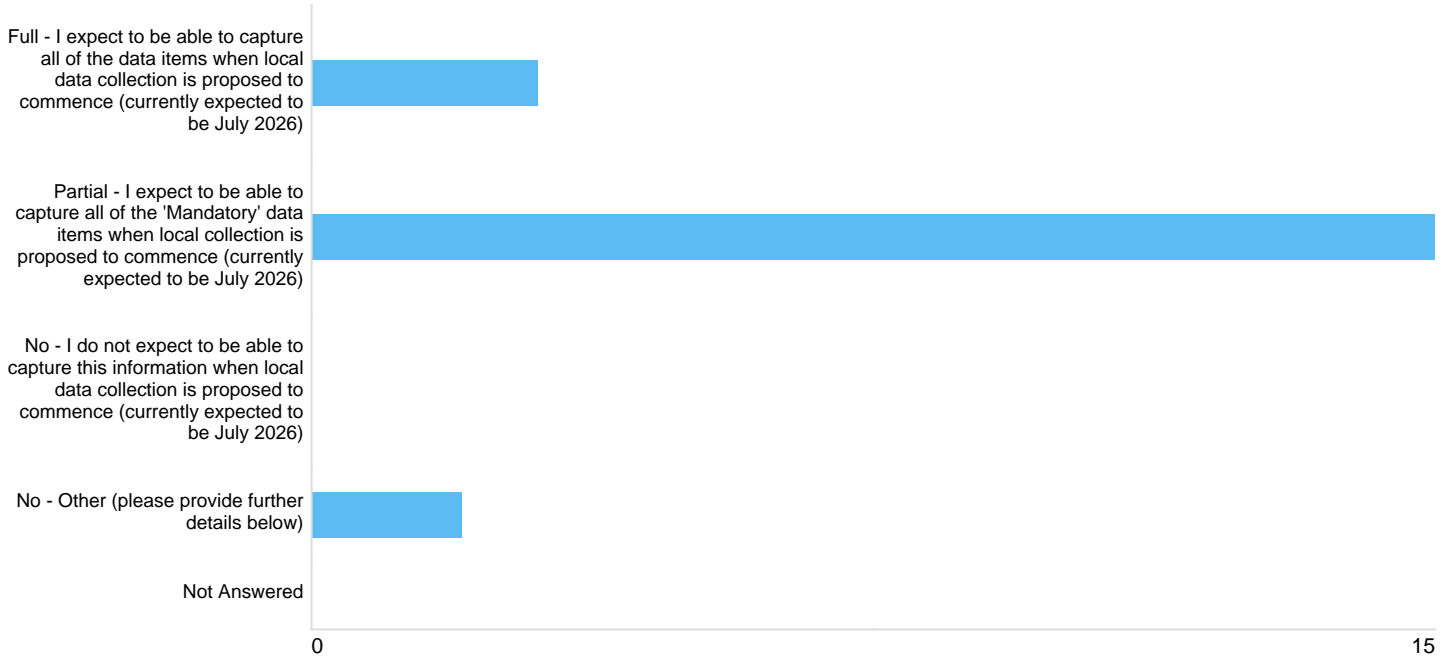

Question 9: This patient-level data set will involve the submission of data tables and their individual data items, which will relate to the patient, their referral(s), invitations to lung health checks, invitations to scans, the scans themselves and their findings, along with any onward referral information. This section outlines each of the proposed data tables. Please review each of the proposals listed below for inclusion into this new data set. Please provide an answer to indicate your level of support for the change.

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS000 Header' table

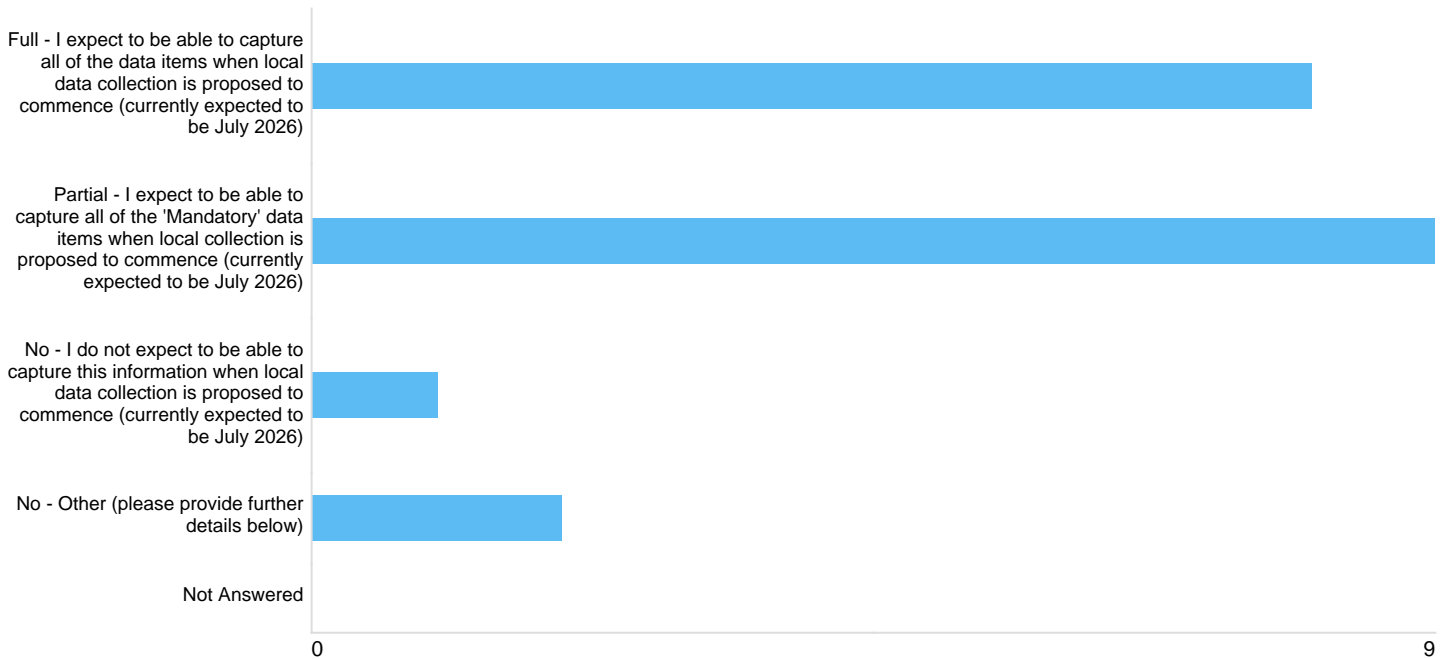

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	16	80.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	0	0.00%
No - Other (please provide further details below)	2	10.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS001 Master Patient Index' table.

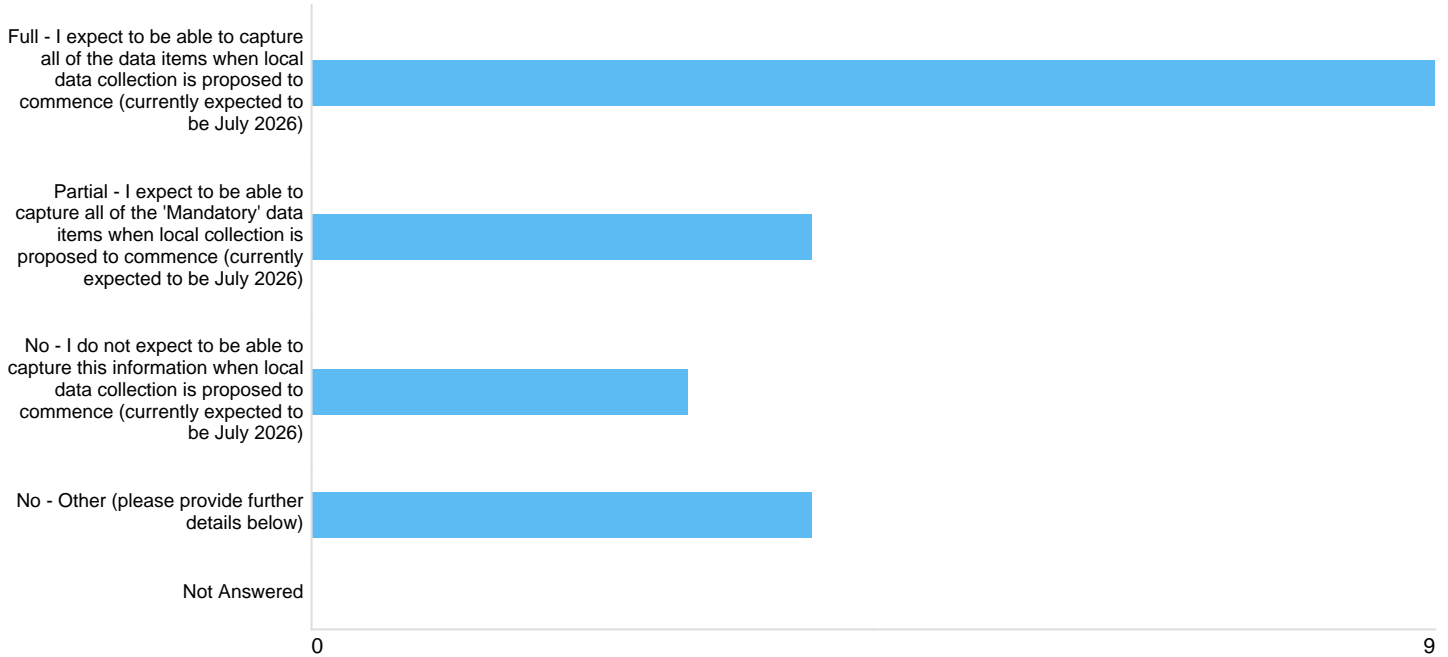

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	3	15.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	15	75.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	0	0.00%
No - Other (please provide further details below)	2	10.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS002 GP Practice Registration' table.

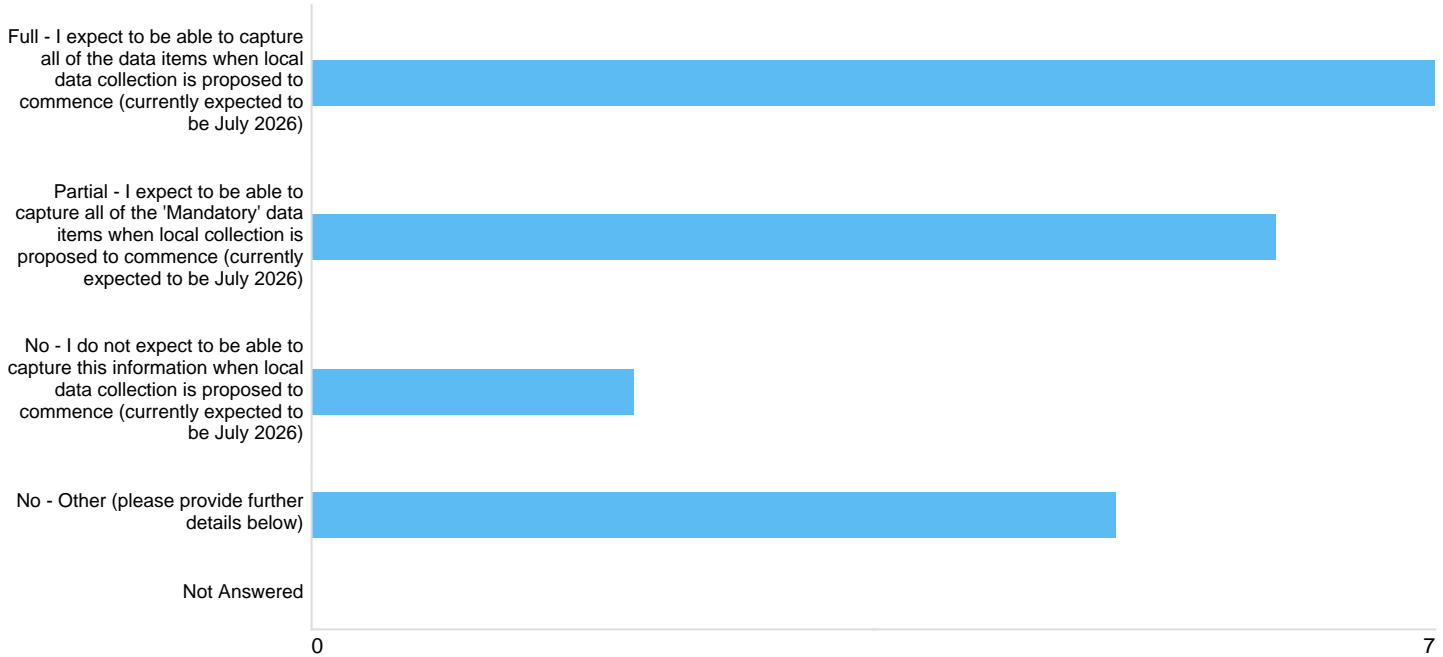

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	8	40.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	9	45.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	1	5.00%
No - Other (please provide further details below)	2	10.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS003 Finding' table.

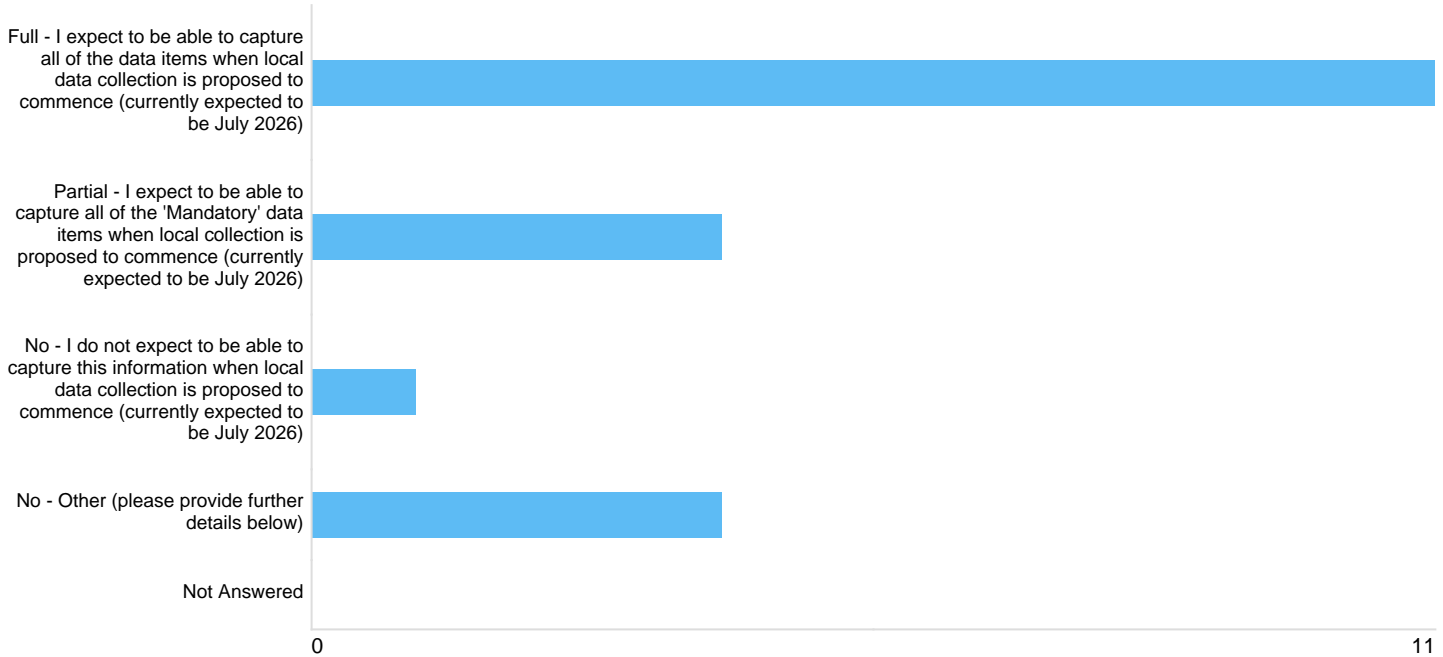

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	9	45.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	4	20.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	3	15.00%
No - Other (please provide further details below)	4	20.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS004 Observation' table

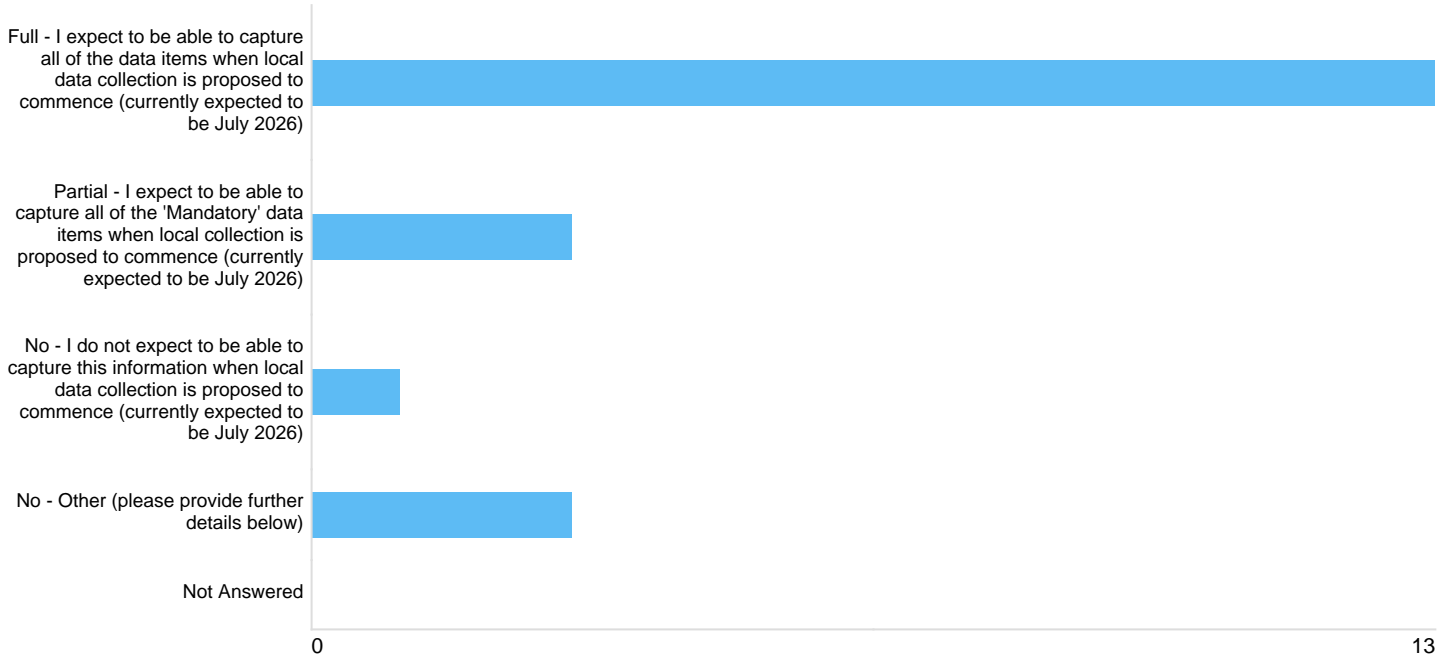

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	7	35.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	6	30.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - Other (please provide further details below)	5	25.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS101 Service Request' table.

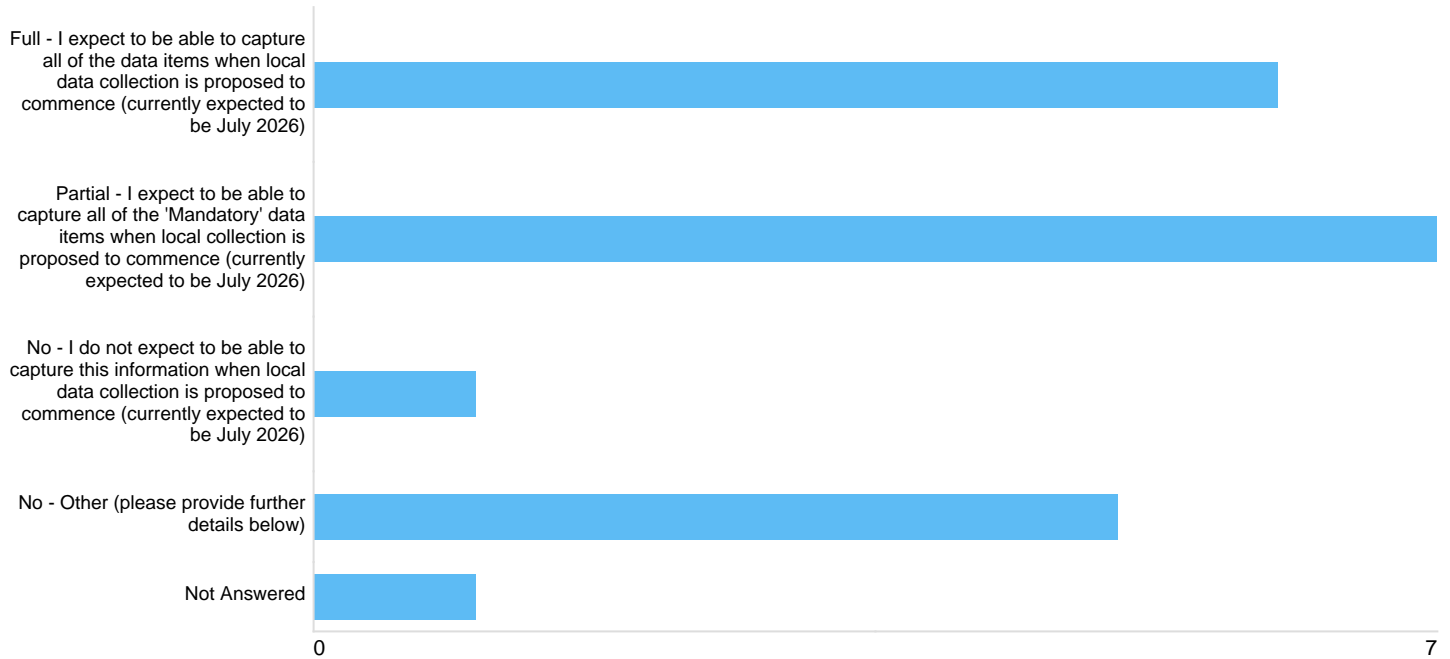

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	11	55.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	4	20.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	1	5.00%
No - Other (please provide further details below)	4	20.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS102 Invitation Reminder' table

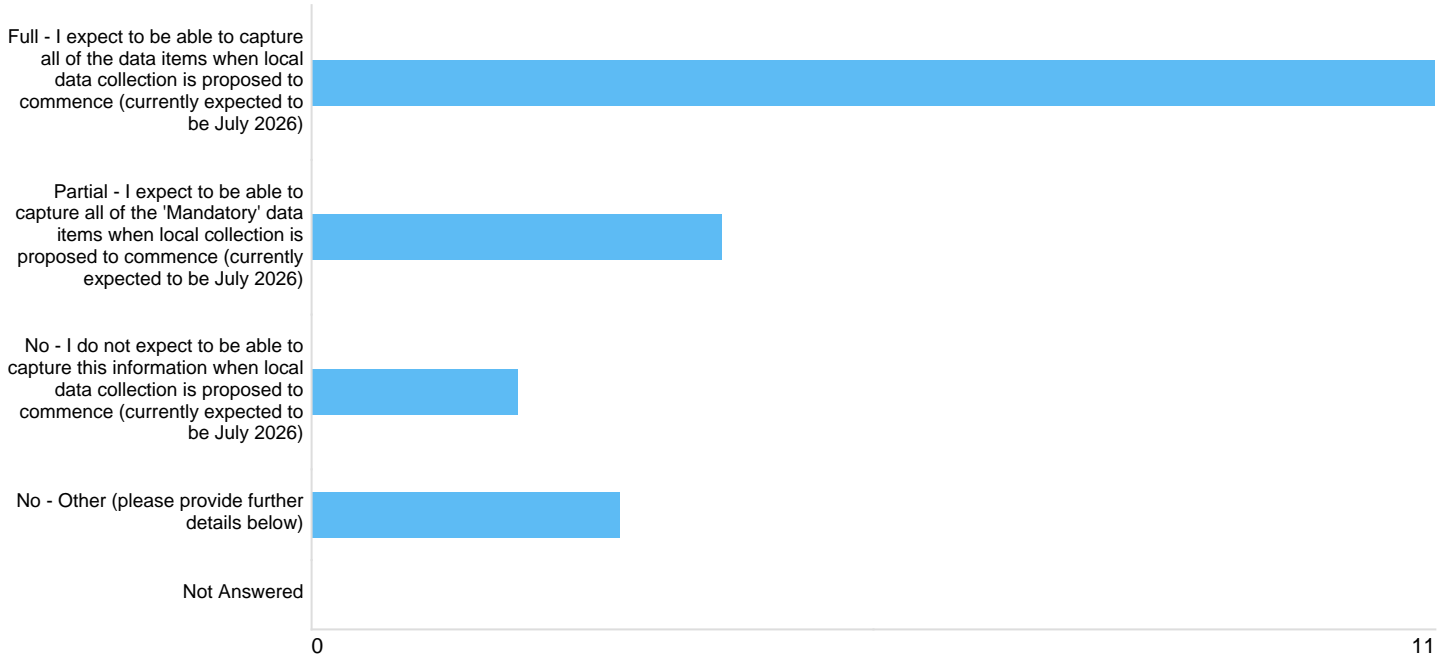

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	13	65.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	3	15.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	1	5.00%
No - Other (please provide further details below)	3	15.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS103 Screening Activity' table

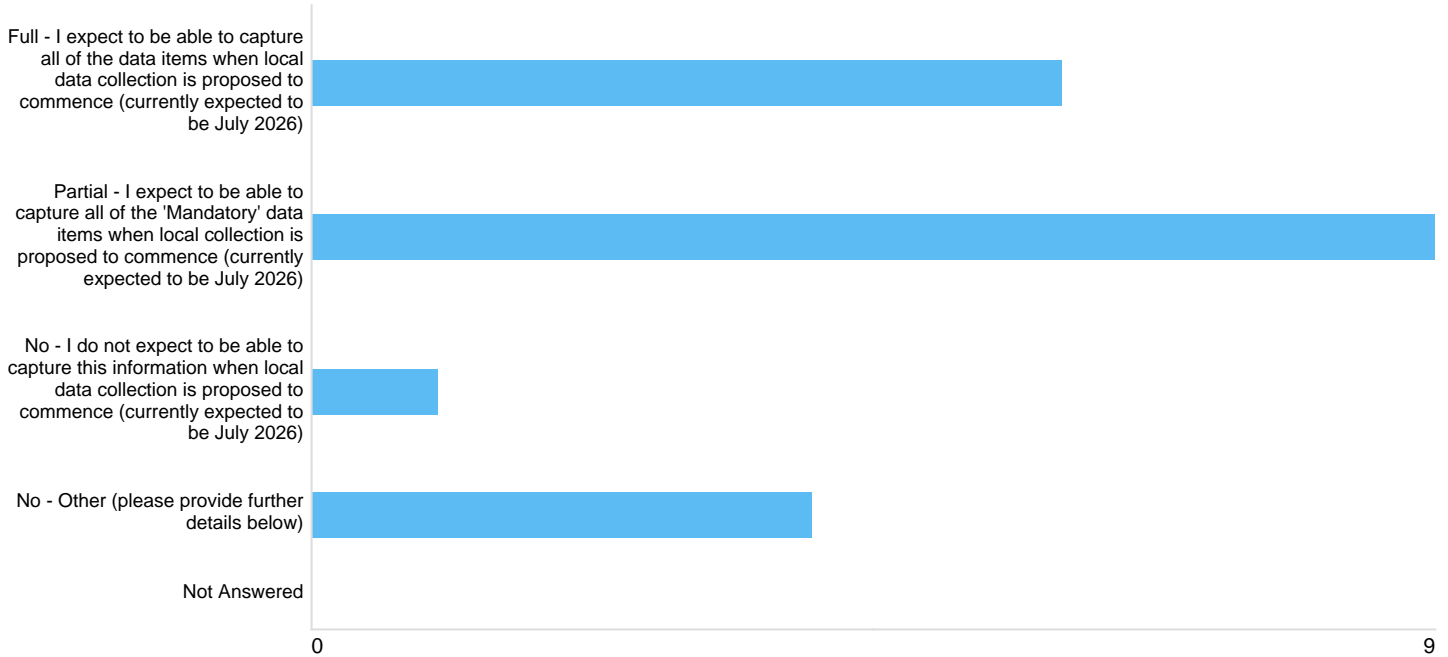

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	6	30.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	7	35.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	1	5.00%
No - Other (please provide further details below)	5	25.00%
Not Answered	1	5.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS104 Onward Referral' table

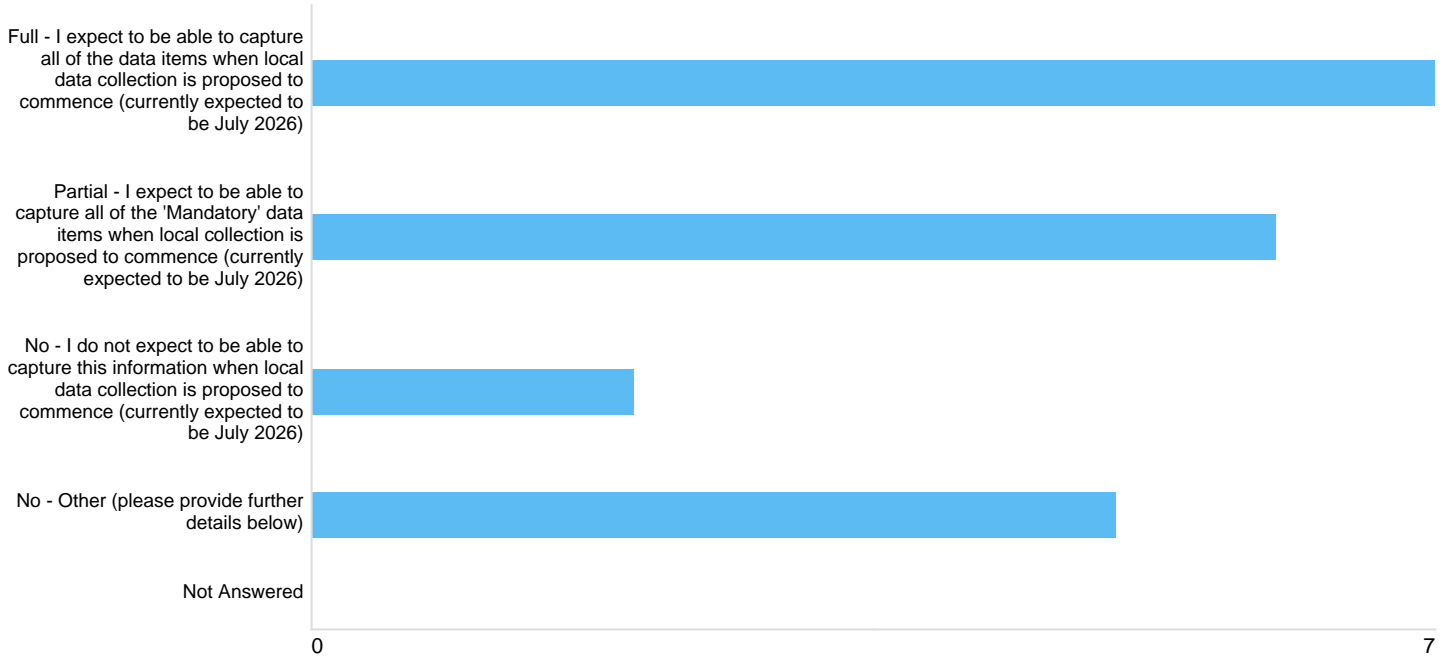

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	11	55.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	4	20.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - Other (please provide further details below)	3	15.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS201 Care Contact' table

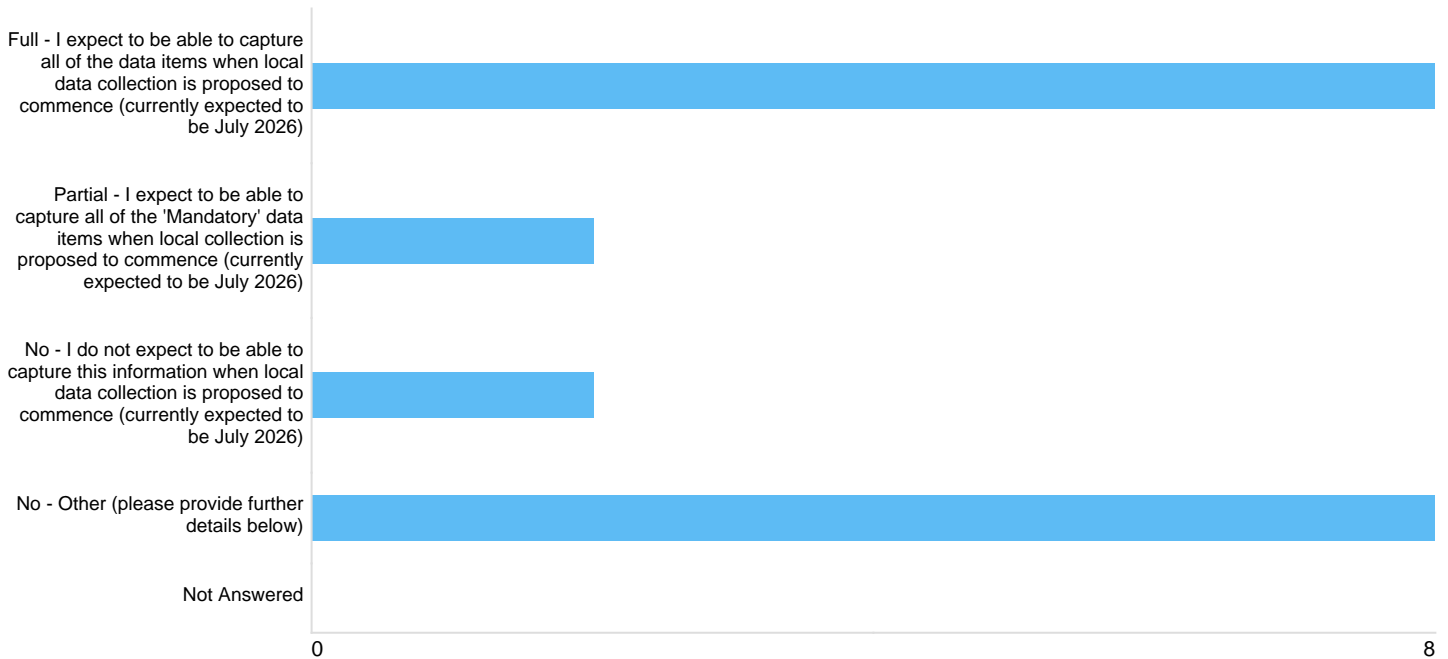

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	6	30.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	9	45.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	1	5.00%
No - Other (please provide further details below)	4	20.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS202 Care Activity' table

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	7	35.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	6	30.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - Other (please provide further details below)	5	25.00%
Not Answered	0	0.00%

Please provide your response regarding the proposal to add the data tables listed below. - 'LCS203 Coded Scored Assessment (Care Activity)' table

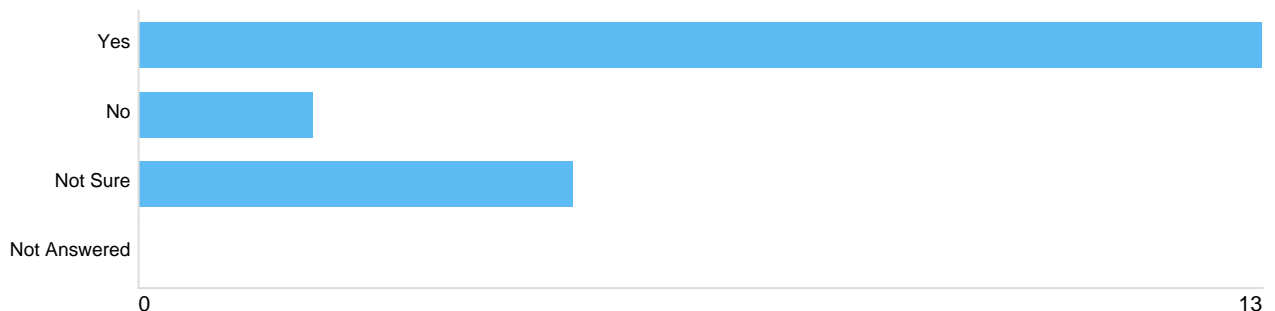

Option	Total	Percent
Full - I expect to be able to capture all of the data items when local data collection is proposed to commence (currently expected to be July 2026)	8	40.00%
Partial - I expect to be able to capture all of the 'Mandatory' data items when local collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - I do not expect to be able to capture this information when local data collection is proposed to commence (currently expected to be July 2026)	2	10.00%
No - Other (please provide further details below)	8	40.00%
Not Answered	0	0.00%

Please provide your comments or feedback on these below.

There were **16** responses to this part of the question.

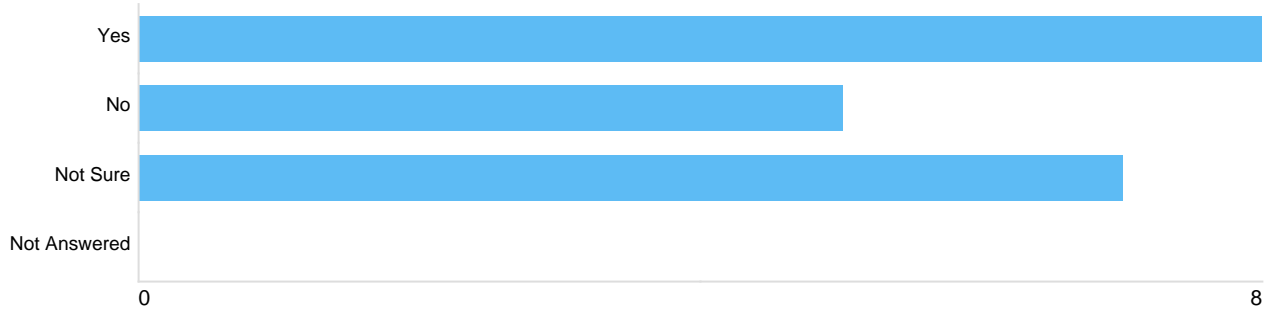

Question 10: Referring to the LCS001 Master Patient Index table, are you able to capture the following data items:

Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Person Stated Gender Code

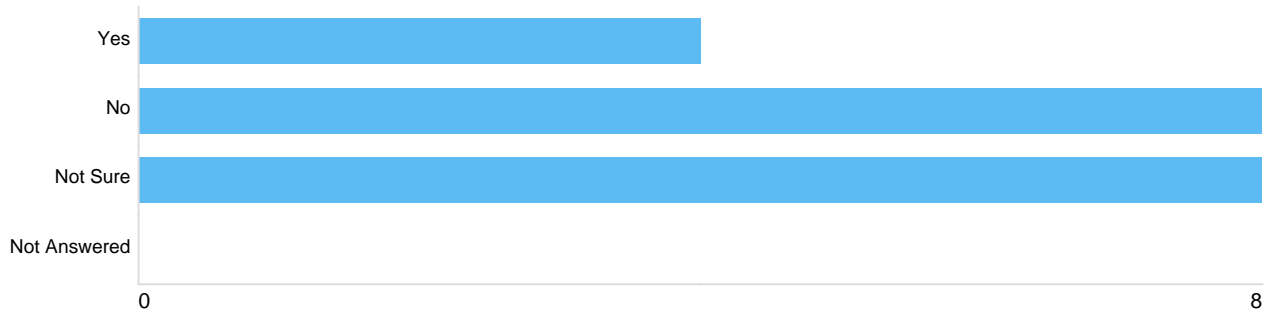

Option	Total	Percent
Yes	13	65.00%
No	2	10.00%
Not Sure	5	25.00%
Not Answered	0	0.00%

Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Religious or Other Belief System Affiliation Code

Option	Total	Percent
Yes	8	40.00%
No	5	25.00%
Not Sure	7	35.00%
Not Answered	0	0.00%

Referring to the LCS001 Master Patient Index table, are you able to capture the following data items: - Person Stated Sexual Orientation Code

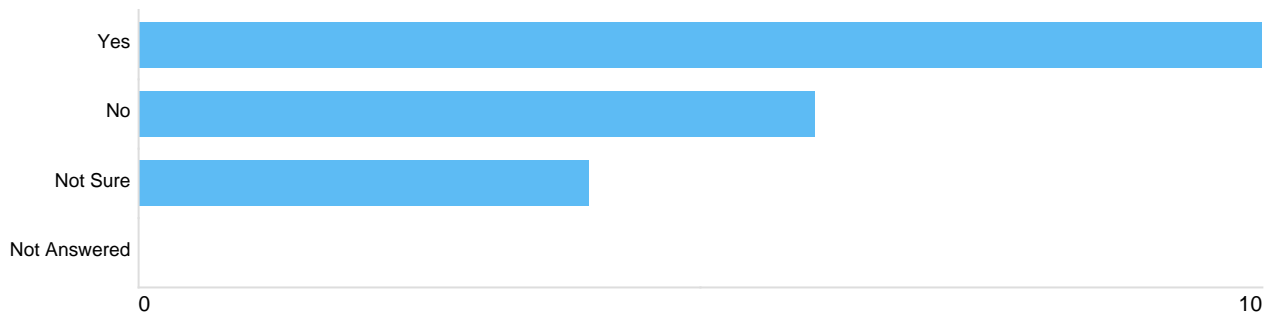

Option	Total	Percent
Yes	4	20.00%
No	8	40.00%
Not Sure	8	40.00%
Not Answered	0	0.00%

If yes, can you elaborate on how you capture these data items within your system (e.g. ICD-10, SNOMED CT etc)?

There were 18 responses to this part of the question.

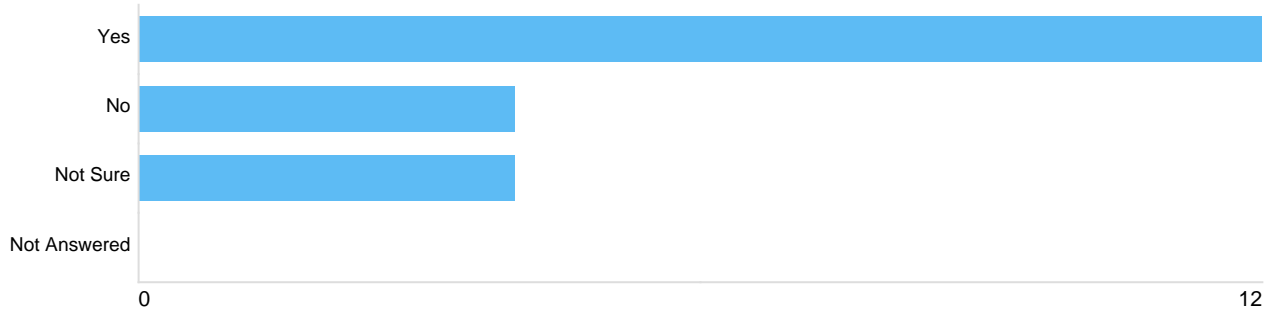

Question 11: Referring to the LCS001 Master Patient Index table. Do you anticipate the collection of the following data items to be problematic?

LCS001 MPI - Religious or Other Belief System Affiliation Code

Option	Total	Percent
Yes	10	50.00%
No	6	30.00%
Not Sure	4	20.00%
Not Answered	0	0.00%

LCS001 MPI - Subject of Care Stated Sexual Orientation Code

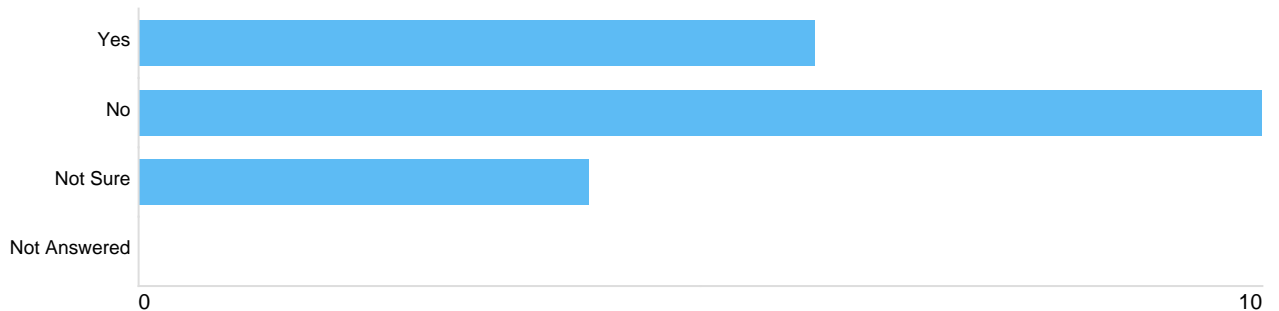

Option	Total	Percent
Yes	12	60.00%
No	4	20.00%
Not Sure	4	20.00%
Not Answered	0	0.00%

If yes, please provide further details below:

There were 17 responses to this part of the question.

Question 12: Do you use SNOMED-CT for capturing Observations, Findings and Procedures within your system? Some examples are as follows: 2489381000000106 Lung health check (procedure) 713548006 Low dose computed tomography of thorax (procedure) 1792031000000106 Prostate, Lung, Colorectal, and Ovarian modified 2012 6-year lung cancer risk calculator for smokers score (observable entity)

Please provide further information below:

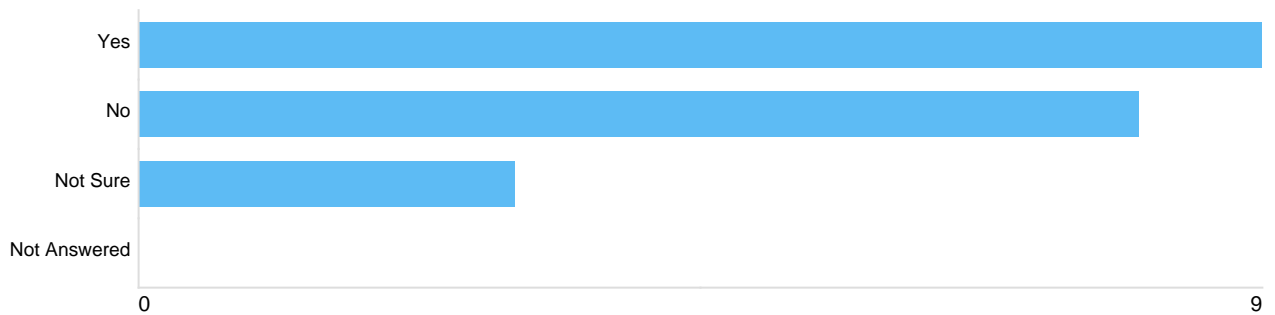

Option	Total	Percent
Yes	6	30.00%
No	10	50.00%
Not Sure	4	20.00%
Not Answered	0	0.00%

Please provide further information below:

There were 17 responses to this part of the question.

Question 13: Do you have the capability to submit diagnosis of lung cancer within this data set? One example is as follows: 363358000 Malignant neoplasm of lung (disorder) [SNOMED CT]

Do you have the capability to submit diagnosis of lung cancer within this data set?

Option	Total	Percent
Yes	9	45.00%
No	8	40.00%
Not Sure	3	15.00%
Not Answered	0	0.00%

Please provide further information below:

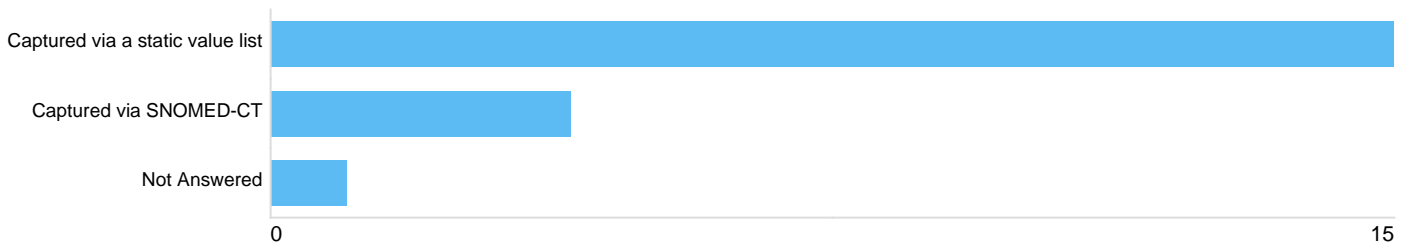

There were **18** responses to this part of the question.

Question 14: How do you currently record Smoking Status within your system?

Please provide further information below:

There were **18** responses to this part of the question.

How do you currently capture this?

Option	Total	Percent
Captured via a static value list	15	75.00%
Captured via SNOMED-CT	4	20.00%
Not Answered	1	5.00%

Question 15: We are proposing to make the NHS Number mandatory. Do you foresee any problems with this? It would be useful for us to know how many patients on your records currently do not hold an NHS Number?

Please provide as much information as possible below:

There were **19** responses to this part of the question.

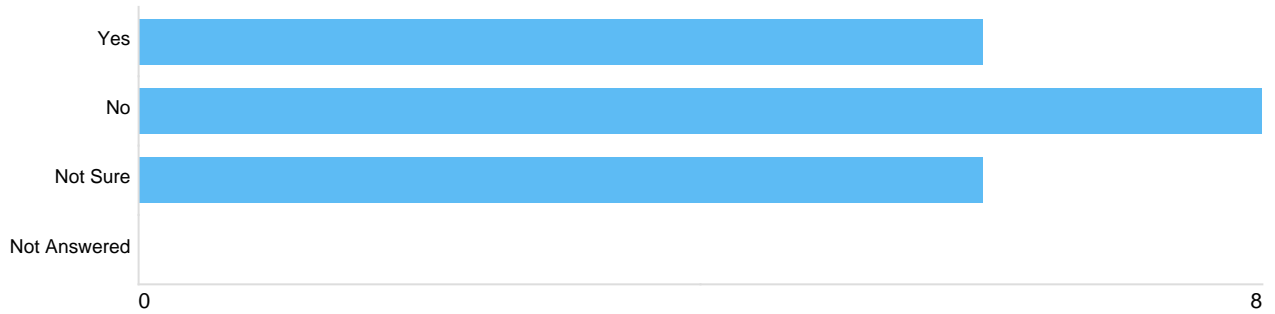

Question 16: Do you record 'overall score' for lung health checks or as 'answers to individual scores'? Do you have the capability to record this as separate questions?

Please provide as much information as possible below:

There were **19** responses to this part of the question.

Question 17: Do you currently submit any information to the Diagnostic Imaging Data Set (DIDS)?

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details

Option	Total	Percent
Yes	6	30.00%
No	8	40.00%
Not Sure	6	30.00%
Not Answered	0	0.00%

Please provide further information below:

There were **15** responses to this part of the question.

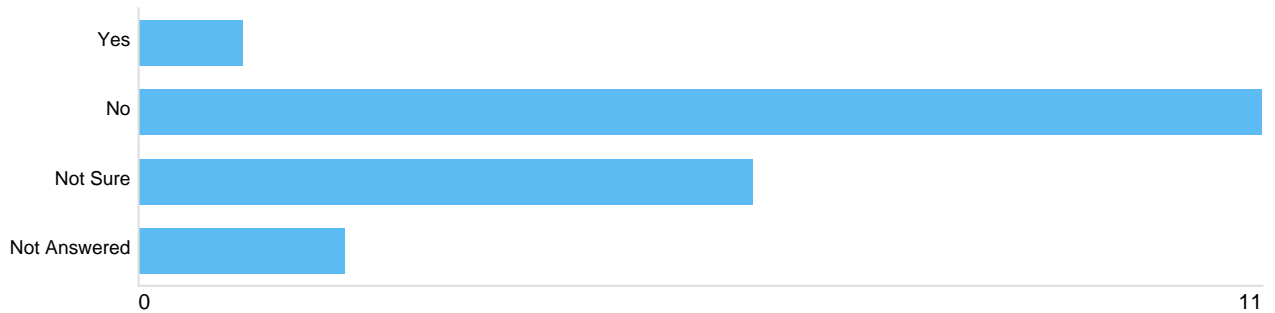

Question 18: We want to ensure that data is not being duplicated across different data sets. If you are already submitting data to the Diagnostic Imaging Data Set (DIDS), can you please describe this in more detail below?

Please provide further information below:

There were **16** responses to this part of the question.

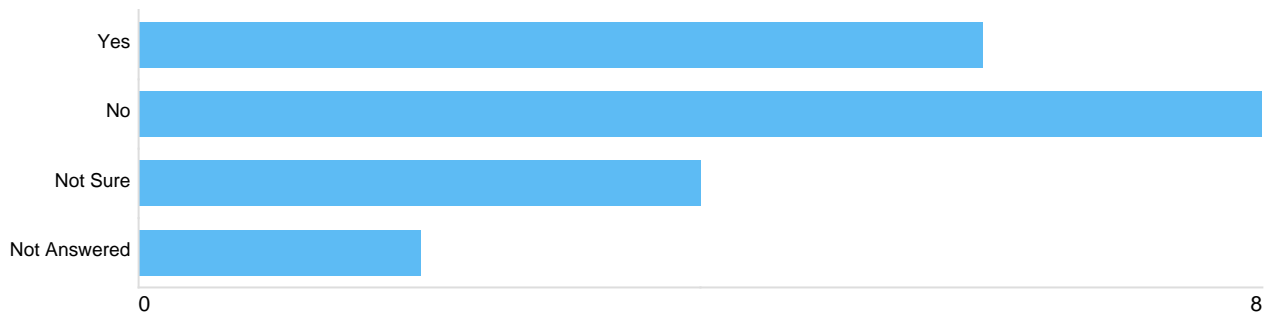

Question 19: If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details:

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Does any of this information include lung cancer screening or scans which take place within the Lung Cancer Screening Programme?

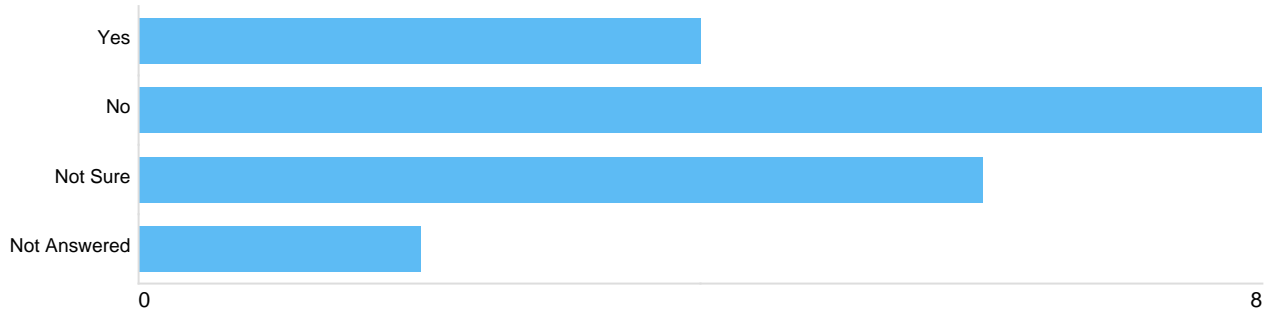

Option	Total	Percent
Yes	1	5.00%
No	11	55.00%
Not Sure	6	30.00%
Not Answered	2	10.00%

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Is any of your lung screening activity (i.e. a low dose CT scan) captured using a Radiology Information System?

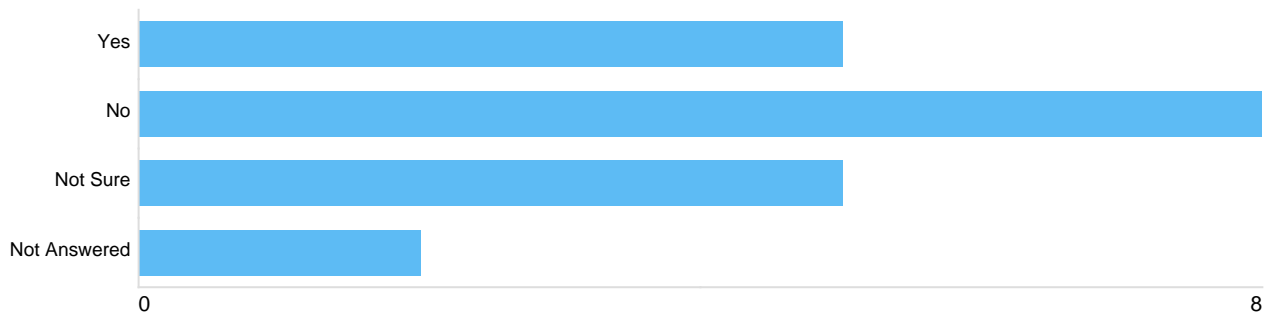

Option	Total	Percent
Yes	6	30.00%
No	8	40.00%
Not Sure	4	20.00%
Not Answered	2	10.00%

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Are your scanners part of a Trust Radiology system?

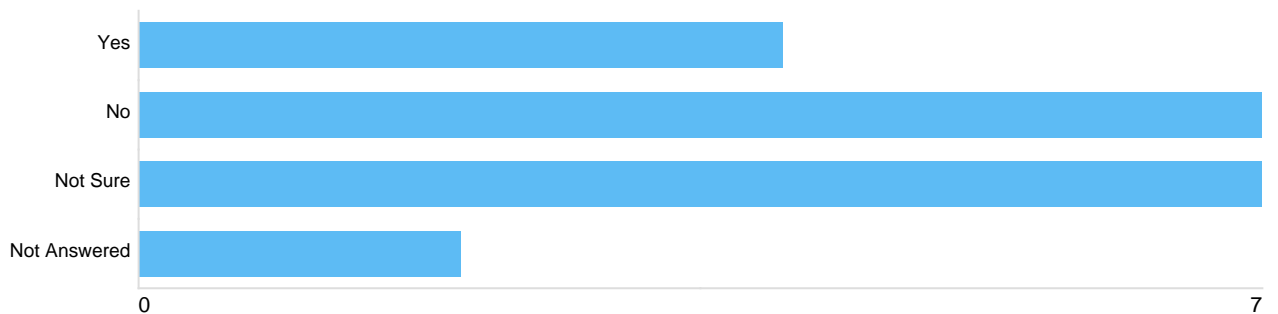

Option	Total	Percent
Yes	4	20.00%
No	8	40.00%
Not Sure	6	30.00%
Not Answered	2	10.00%

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Is any of your screening activity/imaging run and managed within a radiology department?

Option	Total	Percent
Yes	5	25.00%
No	8	40.00%
Not Sure	5	25.00%
Not Answered	2	10.00%

If you are currently submitting data to the Diagnostic Imaging Data Set (DIDS), we would like to know the following details - Who is responsible for performing the scans? We would like to understand the type of staff involved and whether staff are also distinct to just the lung cancer screening programme or whether they are more of a shared resource across Radiology?

Option	Total	Percent
Yes	4	20.00%
No	7	35.00%
Not Sure	7	35.00%
Not Answered	2	10.00%

Question 20: If you have answered 'Yes' to Question 19 above. Please provide further information below:

Please provide further information below:

There were **16** responses to this part of the question.

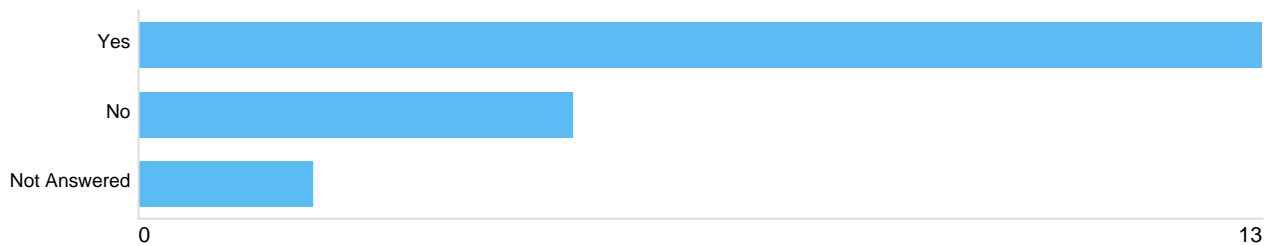

Question 21: Monthly reports on the LCSDS will be published on the NHS England website once the data set has gone live. The reports contain key information based on the submissions that have been made by providers and each report focuses on data relating to activity that occurred within a previous reporting month. Please provide details of any specific reports that you would like to see based on the proposed new data in version 1.0 of the LCSDS.

Please provide further details below:

There were **15** responses to this part of the question.

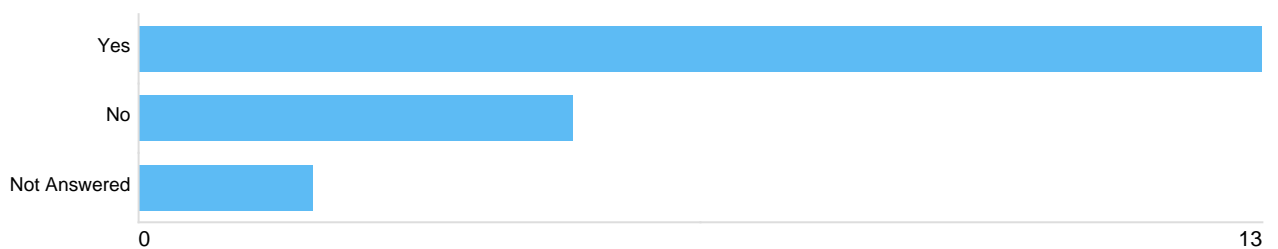

Question 22: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025, would you anticipate being able to achieve the following timescales?

Would you anticipate being able to achieve the following timescales? - Collection of the required data from 1 July 2026

Option	Total	Percent
Yes	13	65.00%
No	5	25.00%
Not Answered	2	10.00%

Would you anticipate being able to achieve the following timescales? - Submission of the required data from 1 August 2026

Option	Total	Percent
Yes	13	65.00%
No	5	25.00%
Not Answered	2	10.00%

Q25: Comments

There were **15** responses to this part of the question.

Question 23: Following publication of the ISN, when do you anticipate you will be ready to make a submission?

Please provide further information below:

There were **18** responses to this part of the question.

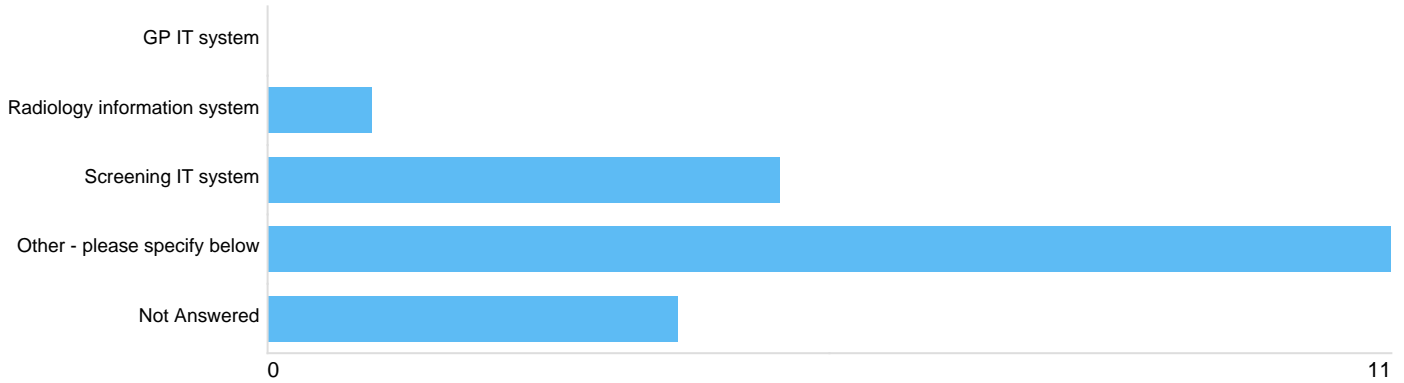

Question 24: We are considering who will be responsible for submitting data, and we need to determine what level of granularity data needs to be submitted in. As we are considering data to be submitted at site level, if you are a provider organisation, do your various sites have an ODS code? If so, please state the code. If sites do not have an ODS code, can you foresee any issues with obtaining one? Please add further details below.

Please provide further information below:

There were **18** responses to this part of the question.

Question 25: Which type of system(s) do you supply? Please tick all that apply:

Q26

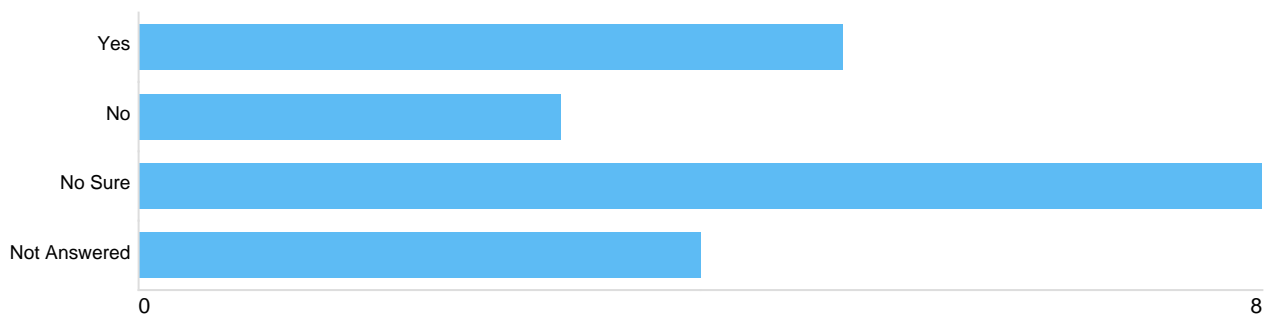

Option	Total	Percent
GP IT system	0	0.00%
Radiology information system	1	5.00%
Screening IT system	5	25.00%
Other - please specify below	11	55.00%
Not Answered	4	20.00%

Q26-other

There were **15** responses to this part of the question.

Question 26: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025, would you anticipate your system being ready for providers to collect data from 1 July 2026 and submit data from 1 August 2026?

Please provide further information below:

Option	Total	Percent
Yes	5	25.00%
No	3	15.00%
No Sure	8	40.00%
Not Answered	4	20.00%

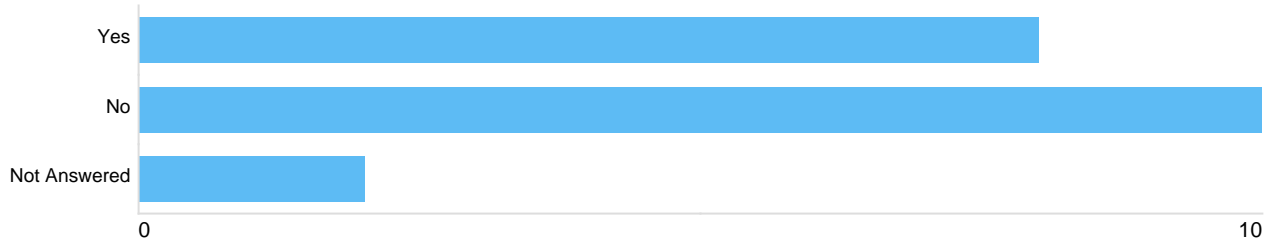

Question 27: Further to question 26. If you are unsure or you have responded 'no' to this question, please add further details below:

Please provide further information below:

There were **16** responses to this part of the question.

Question 28: Assuming the ISN is ready to be published in December 2025/January 2026 at the latest, do you consider the period of notice (six months) provided through the ISN to be adequate for the level of change included in this release?

Q28: Yes/No

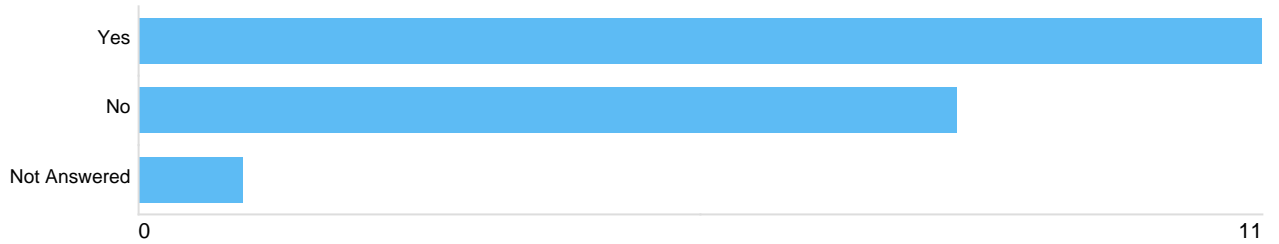

Option	Total	Percent
Yes	8	40.00%
No	10	50.00%
Not Answered	2	10.00%

Q28: Comments

Question 29: Assuming the Information Standards Notice (ISN) is ready to be published in December 2025/January 2026 at the latest, would you anticipate being able to achieve the following timescales?

would you anticipate being able to achieve the following timescales? - To allow recording of the data items specified in LCSDS v1.0 by 1 July 2026

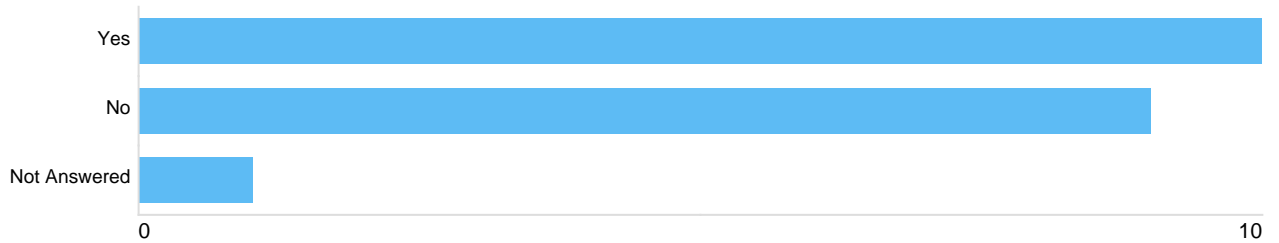

Option	Total	Percent
Yes	11	55.00%
No	8	40.00%
Not Answered	1	5.00%

would you anticipate being able to achieve the following timescales? - To allow production of extracts for submission to NHS England in the format specified in LCSDS v1.0 by August 2026

Option	Total	Percent
Yes	10	50.00%
No	9	45.00%
Not Answered	1	5.00%

would you anticipate being able to achieve the following timescales? - To allow provider access to data in the new structure by August 2026

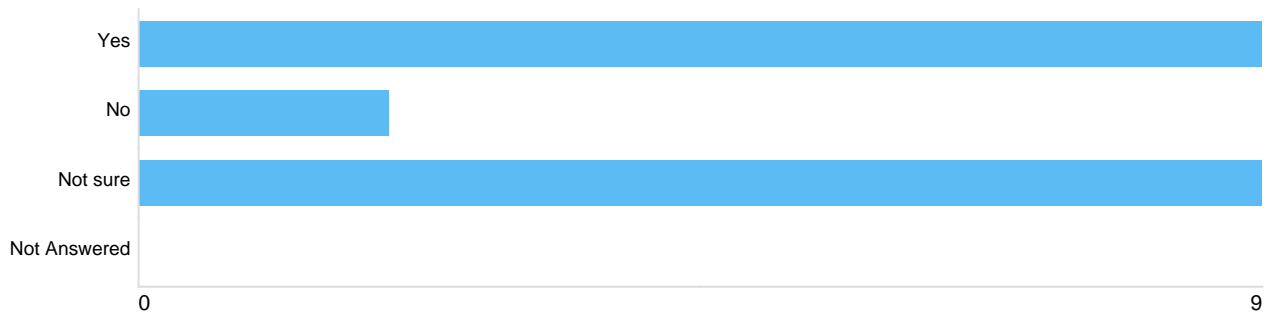

Option	Total	Percent
Yes	10	50.00%
No	9	45.00%
Not Answered	1	5.00%

Q27: Comments

There were **20** responses to this part of the question.

Question 30: Do you believe that any of these additions proposed for LCSDS v1.0 will create any unnecessary additional burden?

Do you believe that the changes proposed in MHSDS v5.0 will create additional burden?

Option	Total	Percent
Yes	9	45.00%
No	2	10.00%
Not sure	9	45.00%
Not Answered	0	0.00%

Please provide any further comments below:

There were **19** responses to this part of the question.

Question 31: Are there any other tools or resources you would like NHS England to provide, to assist with the implementation of LCSDS Version 1.0?

Are there any other tools or resources you would like NHS Digital to provide, to assist with the implementation of MHSDS Version 6.0?

Option	Total	Percent
Yes	17	85.00%
No	1	5.00%
Not Answered	2	10.00%

If there are any other tools or resources you would like NHS England to provide, to assist with the implementation of LCSDS Version 1.0, please provide details below:

There were **20** responses to this part of the question.

Question 32: If applicable (data submitters only), is there anything further NHS England can do to help with the data quality of your submissions?

If there is anything further NHS England can do to help with the data quality of your submissions, please provide details below:

There were **17** responses to this part of the question.

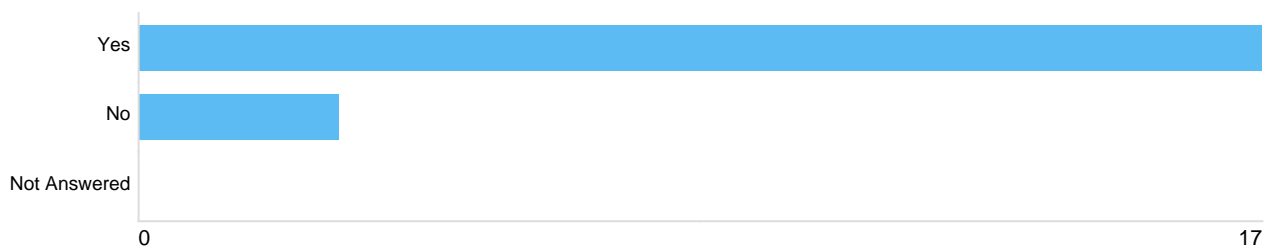

Question 33: Please take this opportunity to raise any issues or concerns you have with the changes proposed in LCSDS v1.0.

Please provide specific details of any issues or concerns below:

There were **18** responses to this part of the question.

Question 34: Would you be interested in attending the next Expert Reference Group (ERG) session?

Please provide further information below:

Option	Total	Percent
Yes	17	85.00%
No	3	15.00%
Not Answered	0	0.00%

If yes, please ensure that you have provided your contact details

There were **19** responses to this part of the question.

Question 35: Do you consider the introduction of the Lung Cancer Screening Data Set to be beneficial. And if so please provide additional details?

Please provide further information below:

There were **19** responses to this part of the question.

Question 36: The LCSDS as per many of our data sets, will be in a relational structure (please refer to the draft data model and technical output specification for details). If you have any concerns about this format, please provide further details.

Please provide further information below:

There were **16** responses to this part of the question.

Question 37: NHS England plan to provide the following resources: Implementation Guidance, Technical Output Specification (TOS), User Guide, Data Model and some scenarios with example data to support the implementation of LCSDS v1.0. Are there any tools or resources NHS England can provide in addition to these to support the implementation?

Please provide further information below:

There were **17** responses to this part of the question.
